General comments on conduct, attitude, etc.

Fr. Gallagher has a keen organizational ability and an ability to find and use the talents of each individual for the good of the congregation as a whole. Through his efforts the attitude of the congregation has been turned from passive "staying afloat" to actively working toward. growth and achievement. Fr. Gallagher is very easy to work with. His insight and encouragement has helpd the congregation to be much more effective in stewardship and in communication. He has helped the parish become more aware of a "family" relationship, and he is genuinely concerned with spiritual growth and development of the congregation.

Personally, I have found Fr. Gallagher to be a source of insight and a willing spiritual advisor. Discussions with him are always helpful in pinpointing a problem area, whether spiritual or emotional, and finding a way to deal with a problem in a constructive and effective manner. He is always open to new ideas, a good sounding board for opinions, and always encourages spiritual growth and development on an individual level. I have on several occasions sought his guidance and advice and have a deep respect for his judgment and "both feet on the ground" way of dealing with life.
